So, now what? I am
feeling near defeated.

(I'm too negative to pick up anything
of value).

12:25 PM

Is there anything I need to know?

Shaft
Tunnel

dark
inside,

seemed
metallic
plate steel

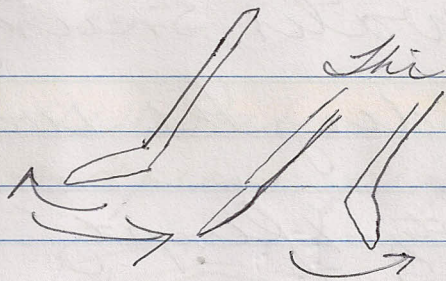

And this stuff
was coming out of the opening
of this pit that felt like it was
inside the tunnel. "Deposit"
that the stuff comes out -
Deposits.

Hmm - I wonder if

Reminded me of
the current grain image
02.14.09 103

That means bark deposits?

What else?

The mitas thing (like a "Club" ^{or} puttis

swinging back & forth -

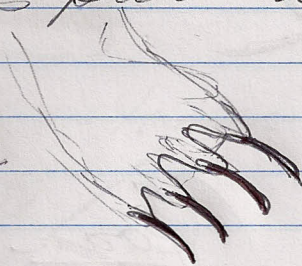

"foot pedal"

female hand w/ long curled black pointy sharp finger nails coming up & out from wherever

"Witch's Brew"

~~by~~ white animal's paw w/ the witch's claw-like nails.

Black nails

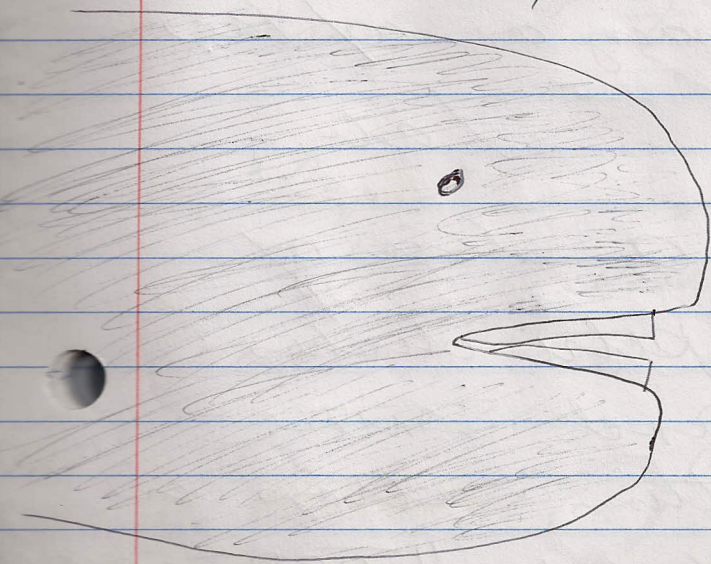

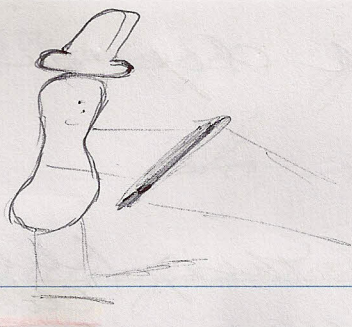

felt
Klog that was Black Moby Black & Jaws at the same time w/ the blade teeth, and it was

"bouncing"

or very

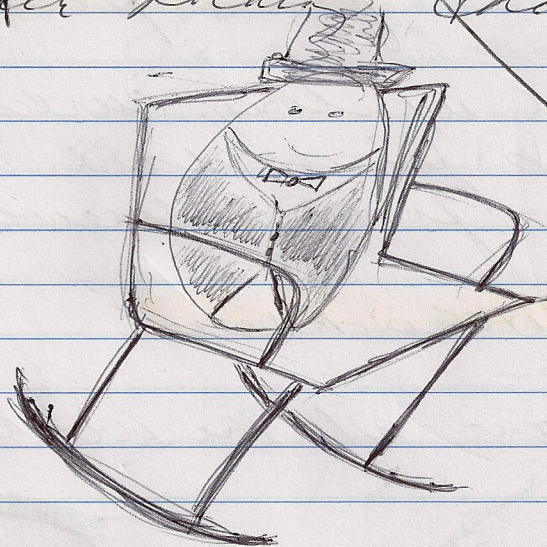

"Bounced"

plant guy and
his wife
water sking
"Riding the wave"

Then he's "Humpty & Humpty" in
a black *Tuxedo* sitting in a
wicker rocking chair all jolly.

J

(Joan heard)
(maybe projection
not sure)

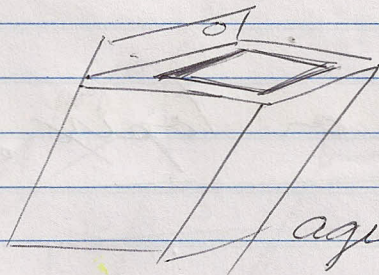

Okay, what is going on w/ the
Cass?

Lab.

- a line of
- petri dishes
- and sample
- putting a drop in
each one "TESTING"

what are they testing?
seems like bodis & autopsy
stuff.

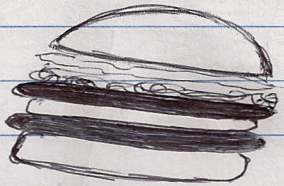

Who are those Peterson story
wordpress people?

White Washing Machine

That's "Bouncing"
agitation cycle - out of balance.

What are they washing?

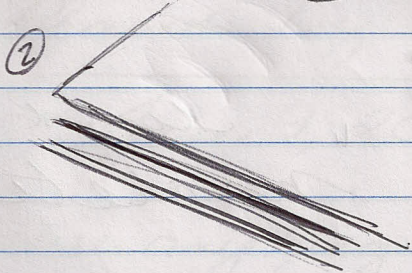

Big Mac

More about them: Something - seems
like a car

①
something
used
mechanically
(like a
grinding
wheel)

front end
gull &
right front quarter

panel & tire - "Mechanics"

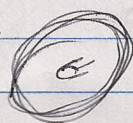

"Rope"

but it looked like steel cable
rolled onto this holder, like a Hose cart

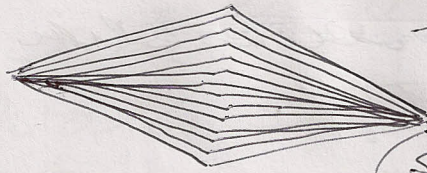

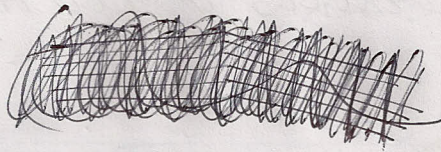

more
about
WP people:

"Pulley"

"Locksmith"

who are they?

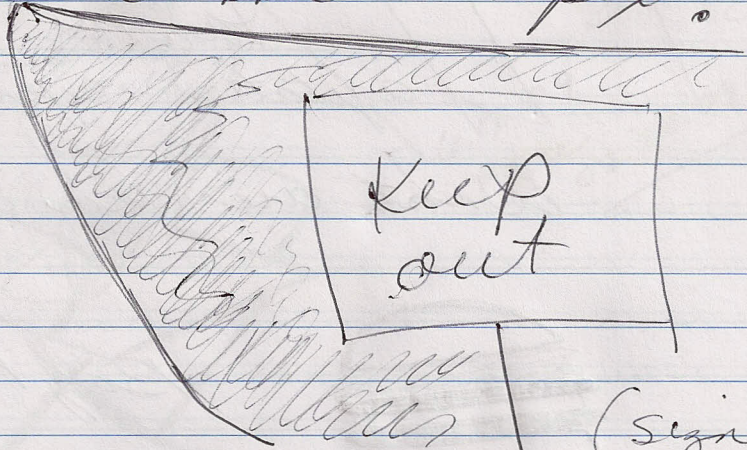

Silver metal

(saw
the B4)

"Hogwash" media

Who is Ouplan Annie or Topix?

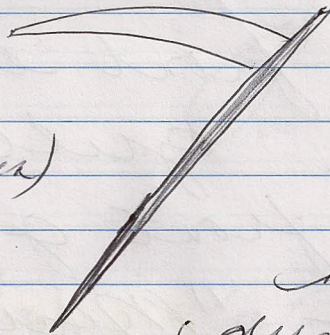

Seemed
like Big
Ship.

(sign)

Who?

(like the
gun reaper)
(tool)

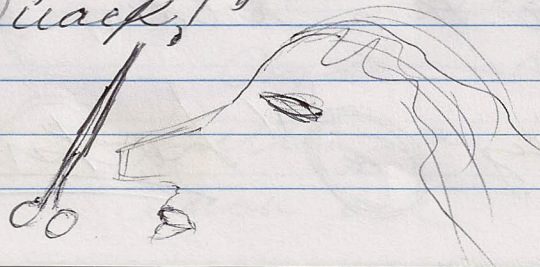

"heard
machete" (sp?)

heard the dandun
dun Jaws music.

Seemed like a cartoon almost
more finger or thumb pointing but
it was shaped like a duck bill
heard "Quack!"

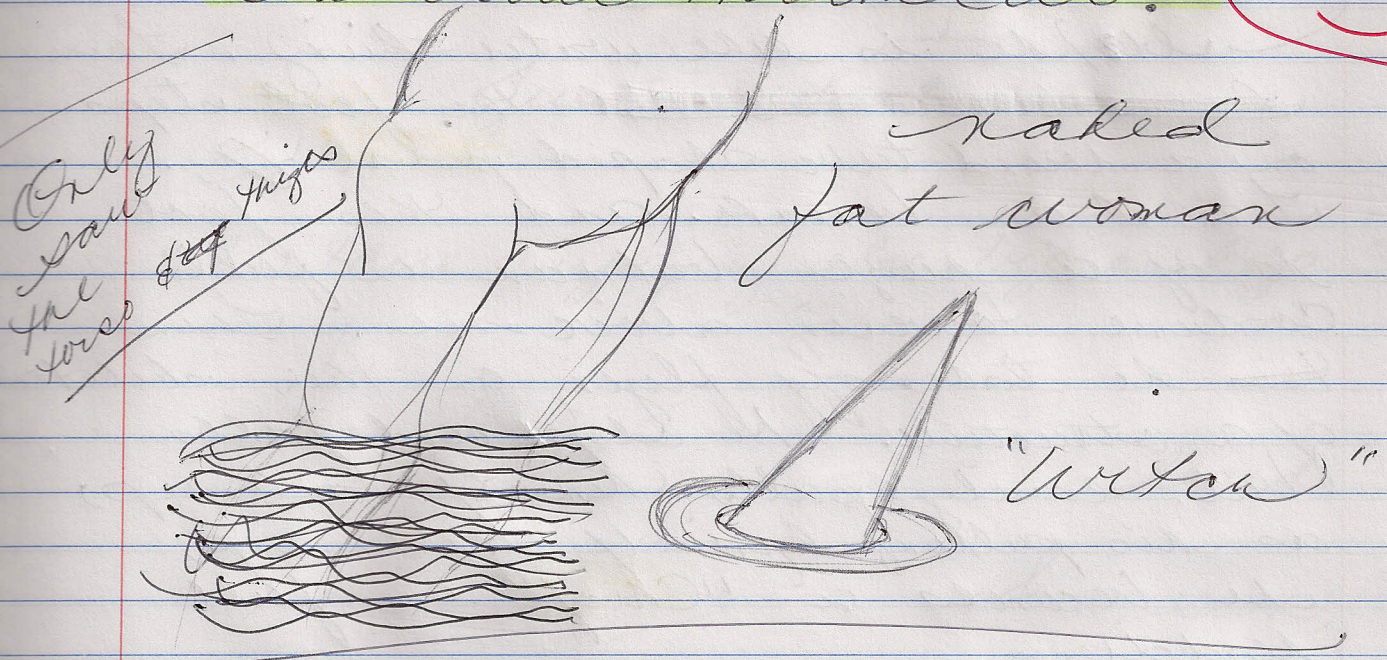

woman's profile
with a focus
on the nose

which
was long
and squawk

Then a pair of surgical scissors
bumping on the nose. The nose wonder
if that means "Nosy"? or maybe
that means a "Nose Job"? "Snow Job"

What about Avalon EWO?

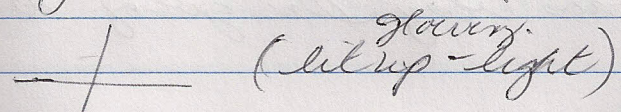

What about the body found along
the Des Plaines by Phil? (nothing)

Is there anything I need to know?

(writing) John or Joan (can't tell which one)

glowing
(lit up - light)

Close up of a woman's face -
her eyes - dark lashes, dark
hair. I see more, this is
Lisa.

White stone
Brick Wall w/ stairs
going down =>

Then the stairs become flat like a conveyor. Then ~~at~~ ~~the~~ ~~end~~ ~~of~~ ~~the~~ ~~conveyor~~, human but not, like an animal.

~~Then I am beneath~~
It is like water skiing. Then ~~I am beneath it and~~ the foot steps on a round tube shaped pedal. Then I am beneath and this foot is of a huge Batman in full costume towering above me. Then ~~he~~ he takes off flying on this skeleton of a structure. He slips and falls but easily pulls himself back up, as his pulling himself back up, he becomes a "Chief" in full address.

(Break)

What about the new project (blog) I plan to start; how well is that received? Is it the right thing to do?

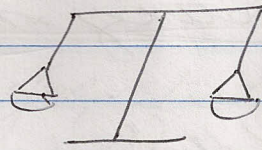

(Immediately got) "gold" "ring," I think

Is there anything you want me to know about this blog I'm going to start?

Racey ground with rolls of 35 mm "film" protruding out. The "film" was the important part. There were several rolls of film but one

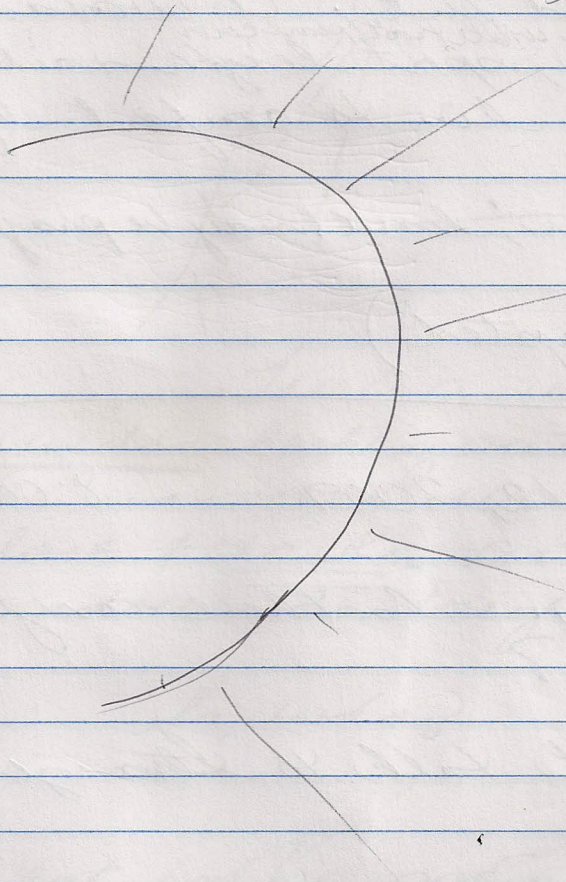

kept showing itself more by sticking
itself out, and back in, and out.

What else do I need to know
about this blog?

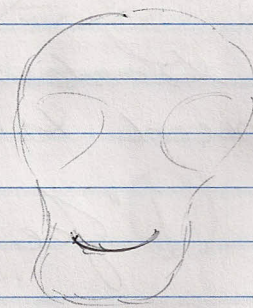

Justice Scales

Is there anything else before I go?

heard

"Sun, sun,
sun, here
it comes"

Skull
face
that
is
smiling.
