Anything you want me
to know Lisa?

John (handwriting, "J" as
shown ). "So Away little girl,
before I beg you to stay."

Go Justice scales

then off to the upper left, a
Black Bowling ball behind some
"cross hairs" or something,
then the ball is "put into
place," "put into play."

(12.23.08
Kingpin)

See a fetus' hand, then see
 a child at a school desk,
 and knew this was Lisa's
 kids in school. I'm thinking
she was pregnant.

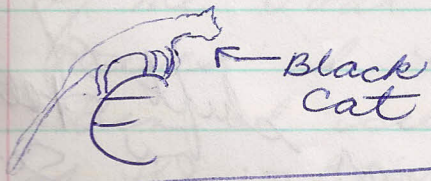

I'm rushed and I can't
 concentrate. I'll need to do
 this later.

8:55 PM

Hija, Lisa. Anything for me?
 "Cindy", in writing. (full asleep)

Saturday, December 13, 2008 9:32 AM

Lisa, who is "Cindy?" I heard
 "Cop" before I finished
 writing the question. I immediately
 saw   ^{but dark like a shadow.} Bright white
 and large.

What does this mean?

^{right} Hand opens a
 cabinet. I heard "Lat"

 Riz that's
 a crucifix
 or a cross
 with someone
 on it.

More about "Cindy" and this lab.

& someone
is reading
or looking at.

It's older, maroon colored or
dull, light burgandy and it
has a "skull" on it. I heard
"potions" (sp?)

Right

a hand, I think woman's but
not certain, inspecting something
it's an arm, "autopsy" and
it's a female arm. The hand
pinches the skin just above
the wrist (right) on the ^{above forearm} body,
feeling the skin, ~~man~~ to determine
decomposition, time table, time of
death. The body is not newly
deceased.

Can you give me more on
"Cindy"?

man's left hand on a gear shift of steering
a truck. Shaft is on seat
Bench truck, think
clothes

Beach. Seat in truck, cloth, maybe
curtain (color), or something plain, no pattern,
burgandy, faded. Big truck, could
be an industrial truck, not sure.

He pulled out the shift knob, as
if he was working on it.

~~on~~ ~~the~~ ~~seat~~ ~~on~~ ~~the~~ ~~seat~~ ~~on~~ ~~the~~ ~~seat~~ ~~on~~ ~~the~~ ~~seat~~
Towel folded
(on passenger's side)
on the seat. It's older, faded
marberry and a "ring" is sitting
on top of it.

Anything else about this guy &
this truck? Handwriting "yes"
more hand writing and through
it, I can make out "jobs".

Hand holding something, truck?
and its motioning up & down,
steadily, then it feels as if
I'm on a boat and that motion
of the boat rocking with the
waves. I thought "boat house."
Then I see the green glow
of the strips on a fireman's
get up. Fireman. (* see 12.16.08 ¹²)

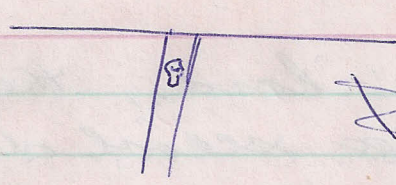

Hard going through books and

I can't make it out completely but the
motion is the key here.

Whatever that one sideways in
somekind of white, maybe will, holds

"Magazine Rack" "Commode"

A magazine rack that's next,
left side of commode if on it,
next to the commode and it
has a larger book in it with
magazines.

"Who is this Guy and what
does he have to do w/ Cindy?"

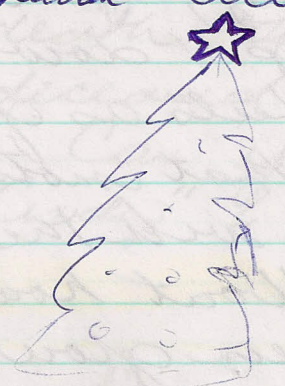

Bug. & Spinning. Like
a carnival ride that
becomes a

"Chain link"

like a bicycle chain that is
like Santa's sleigh & Reindeer
flying in the sky.

heard "All things connected".

Colorful Christmas
tree w/ a big bright
star on top.

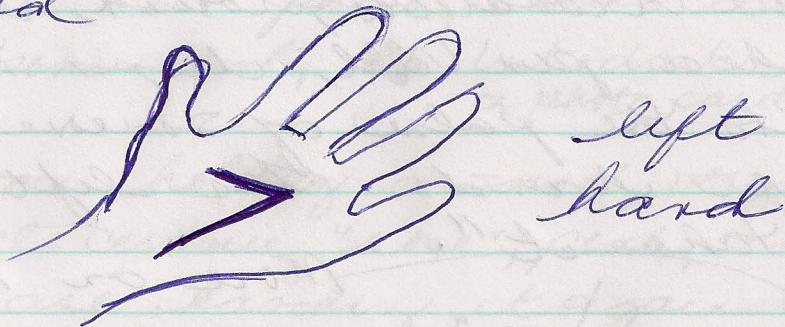

What does all this mean?
(I think I know but asked to see)

I see a glass ball, a crystal
Ball, that is a "globe" of the earth

and a hand reaches up to take hold of the globe, heard "You've got the whole world in..." "You've got the whole world in this hands.", and heard it just like the "coke" song from way back, but with those words.

What should I be looking at?

hand

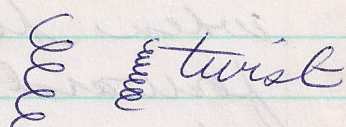

something across the palm like a pen "face" or something. Then a "7" in the palm.

What about this should I be focusing on? Who dunnit

So, who's "dunnit"? f

f (j is also f)
NOT who dunnit but f f.)

Becomes a drill bit. Then a screwdriver.

1213.0

Who is this left hand that has 7 in their palm?

a right hand holding a small ball or whatever, round, small like a pin ball, drops the ball into the palm of someone w/ a left hand. The left hand, "take it".

More on 7 palms?

X "cross hairs"

He has "rings" on his fingers ^{all} and the ring on the index finger is huge. Symbolic here. The rings were all worn high up on the fingers toward the top. The large one on the index finger is flipped off when he flings or flips the hand forward - it's tumbling in the air toward me until I can see it and it's HUGE. Big Rock

12.13.08 Where are your cell phone & purse?

7:05pm

DATE

I see the interior of a car, bucket seats from view of outside passenger side from a distance.

car lights, headlights, car pulling up somewhere in the night. Stealth.

someone takes out the "chip" of the cell phone, looks like a sim card, but dark like a photo card.

someone holding a small, very small ceramic "nose", pink, and they are knocking it against something  maybe another small ceramic thing. NOT the "C" Hand.

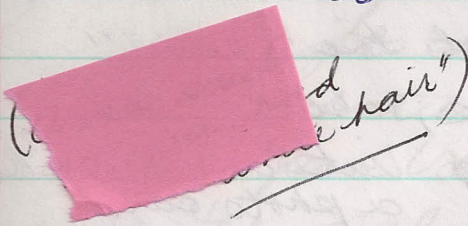

looks like they ^(cell phone) are inside some kind of container or canister that is put into something else, a "hole". I see a drop of water like

I don't know why I am seeing

This but I'm seeing a man's neck
and chest ~~to~~ w/ a tie, his shirt
is semi unbuttoned and his tie
is loosened, it's silk and it looks
diagonally striped w/ colored
stripes, pastel ^{purplish purple & light blue} or black

It's a shorter
tie too

I asked
who's tie
this is and
I heard
"John!"

Purse & cell phone?

I see a bridge, a
smaller one.

→ 
This is underground, a
tunnel like but it's small. I
just heard "sewer line!"

I keep thinking of that septic
hole in that abandoned camp
site next to the possum trailer
across from the Calles shed and
across the creek from the calves.

Purse & cell phone?

DATE

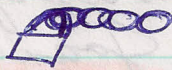

Someone is taking or holding a container that's decorated, pretty, shiny stones, it has a flower on it, ^{or top} charge. Charge purse? It was solid though like  → 
Think it was blue too, (steel blue).

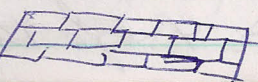

I see a bloodied hand, looked as if there were two hands, from ~~two~~ two people, one holding the other from the top palm to back of hand. ^(the top hand) Both hands were severely bloodied.

Ring Binder.

* Somewhere I saw a Brass pad lock. Think B4 the hands  connected to a steel chain heavy gauge.

I got this when I asked Lisa if she had anything for [REDACTED] that would help.

What about these bloodied hands  I see some kind of brick

wall or something, may be cement block
it was grey,
and there's an opening. I heard
"Hole". (* see 12/01/07. wow!)

Lisa, what do you have for
me today?

F (got side tracked)

Monday, December 15, 2008 6:00 am

Hello, Lisa. Do you have any
info for me today?

Snake. Cobra. King Cobra.

Who is the snake?

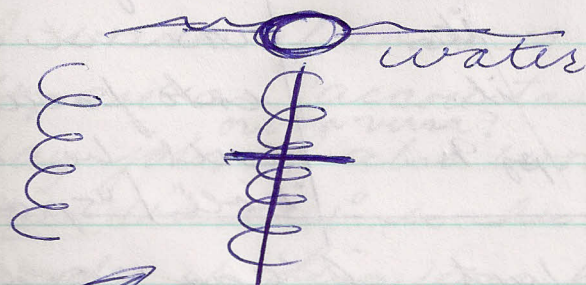

I heard "Joan" before I finished
writing the question. Asked who
Joan is? I saw an hour glass,
that was a lantern that was
a trophy cup. "Stanley Cup" is
what I heard. Is Stanley Cup
hockey?

looks like a snowy mountain
range peak and "Birds of Prey"
come swooping in 3 or 4 of them.

as they fly towards me and over me, I see one with something with wheels on it, in its claws. At first I couldn't make it out, it was more like a frame w/ wheels then it was a car it was clutching in its claws.

White € but this time there's more \equiv and ~~the~~ the "-" are \equiv being "examined" by another hand. At first it looked as if the hand was going to break off one of the "-". Then another. Then "the hand" was examining the "-".

Surry writing. Looks like my journal but not sure. Lots of writing on a page. Can't really make it out; Medical. Medical was one word I "heard."

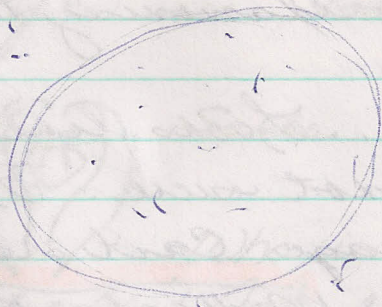

The Drop of water water
This is rotatory around and rising up from underneath in water. A "hole" opens up at the

surface of the water and light
is shining through. The \rightarrow \int
spins up and out about the

surface. Then a plane plane
rose dives down into the ~~plane~~
the \rightarrow \int rose up from but it's

not shaped like a plane and
I felt and heard "Hazy glider."
Actually, at first, just "glider."
Then hazy glider, I thought.

It's all
dark, hard
to make out yet,
and it feels like
"space" and it
looks like a "hole".
It feels like
when it comes
into focus it
will be the
"hole" / "space".

it
it.
pg. 9

* Was feeling it meant "This is it."

* There's writing but I can only see
 \rightarrow "it" on two lines. Then a
reference to pg 9. I don't know if
I have any entries that are 9
pages but I will check.
