during the night, just prior to dawn, the Joliet Airplane crash of Friday evening was a hit.

It had something to do with what at first was Sunday then it was Saturday and it was associated w/ printing press (money laundering) operation.

I tried to pick up on Stacy earlier but was distracted. I did, however, see sailboats in the water from a slight distance and from a little bit higher ground.

Okay, Stacy Peterson, lets see what we can find out. Please help me to see where you are right now.

distinctly heard "Beacon".

Black steering wheel in a
vehicle. Seeing it from upper
left dash view, from where

me of my little brother Chris,
possibly has a goatee (sp?)

lighter and blondish, light

too.

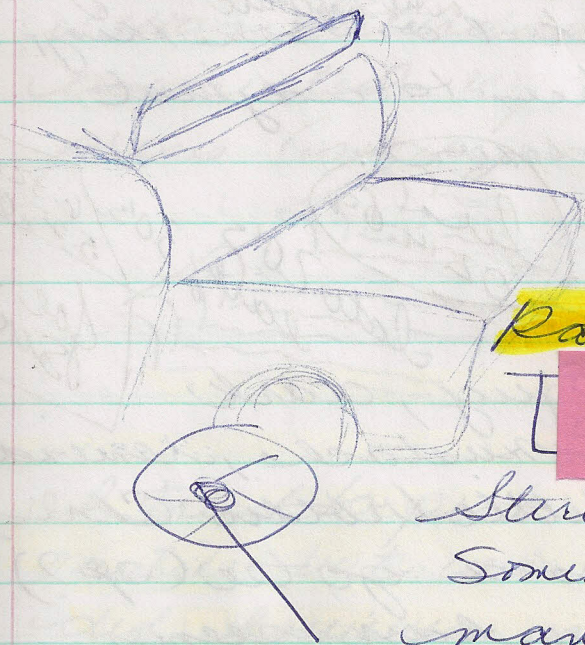

"They" in writing, there's
more words but I can only
make out "They."

I see a gauge, it's on the ship in the control room. Then I see a pair of eyes, and a girl/woman w/ dark hair and she is behind the controls. I'm wondering "stowaway." *Is this the "Captain" and the "Mariner/Coatjard's" tattoo?

Seeing a woman's mouth area (eye) and the teeth as this woman appears to be decomposing into a skeleton but she's not fully a skeleton yet. I heard "eye"

Tell me more about this smoking gun.

Statue of liberty. Again and but as if standing at its base right next to the statue and looking up at the underneath part of the torch.

More about the smoking

gun? a large ship with
a black bottom and its
moving through the water
slowly & the waves it was
making were "rolling"
along side the bottom of the
ship.

More about the smoking

"Fit"

hand writing, new style but
I can't make out the whole
word. It starts with an "F"
as there ~~is~~ is an "i" and a
"t". I don't know if the "t"
follows the "i" or not.
