Woke to hearing "Lucky came home" music. All morning I keep hearing that - the music right before the words "Lucky came home."

Woke to hearing My Leopard

"You got the best of me, Oh, can't you see..."

Is there anything I need to know, Lisa?

Z 

long line of chairs  
(position / Skitons)

(B) line of chairs and the chairs are being "pushed up" from beneath. They're moving up & down.

Can you tell me what is going on w/ Chew and that case?

Hands behind smier's back but instead of handcuffs, and the fingers are facing up, they are <sup>(pins)</sup> putting what looks like "pop tops" on the fingers, ~~one~~ one at a time but I think they are connected / chain.

dark long hair  
40s(?) 5'5" ind  
not overweight.

Dark haired woman going through a filing cabinet, she closes it and walks toward wherever and who's looking at charts or files. She resembled "Leiza HH", so I wonder if her name is Lee or Leiza or something like that, or maybe this "Zypold"?

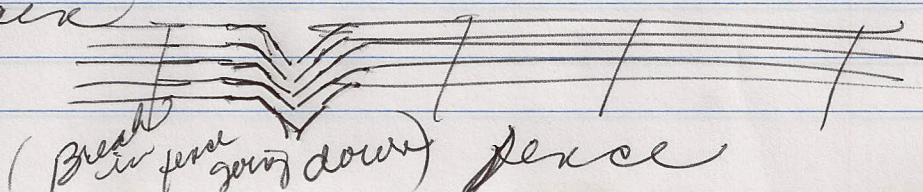

Okay, is there anything else about anything you want me to know before I break away?

Skull all lit up and moving in the air as if to make stand out. Then more of the skeleton in the same kind of glowing white light.
