What about "John" [redacted] [redacted] "?"

Meaning
before is
coming from
Lisa (think)

"Lisa") - Hawk flying high in the sky. Huge wings. Bird of prey. As it's coming in or down, beneath its wing it's now a human type form but it's not human, it's evil and devil like, muscular and dark reddish color.

John & Joan

What about J50, is he involved? heard "yes" saw "yes" in writing. In writing, "Joan."

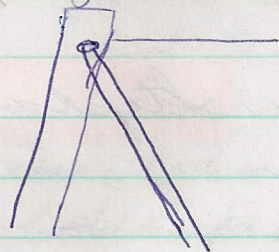

* See 1.16.09 p5

* His heart is beating fast. He's anxious. In a car at night scoping things out, waiting. Anxious because he's anticipating the kill. He knows it's coming.

Tell me more. The hard is doing some thing like it's pushing something flat } into something else.

More about John

Looks like a shower. Skank
quity. I only see the side of

The wall and the
shower curtain pole,
no curtain just
a Skank wall &
space. I bet this
is a prison shower.

Car seat from passenger side
Bucket Seat. There's a counsel in
the middle. Looks like someone
in the driver's seat, then not.
Captain chairs. This must be
a Van. Seagull, thinking
Bugsy. OMG! Siegel!

What about Siegel? "Tony"
heard and saw in writing.

More? A woman's hand coming out
of the ground and ^{she} puts her
hand on the forearm of another
woman (caucasian) who is
slain and naked ^{lying there} and pulls
her down into wherever she is
at. More about Siegel?

I see the small of a woman's
back, she is naked, and is in
a lover's embrace with another

who has thick bands around
her waist and on the small
of her back. PAGE #

More about Siegel and how
this relates to John [redacted]?

I see a hand with the
index finger (right hand) in a
"hook" and it's hooking something,
a wire or line. SWAG.

What does Siegel have to do
with [redacted]? not well defined
"7". "figuratively" seeing the
head and crown of the Statue
of Liberty. Now the arm and
torch and the top half of the
statue.

What does this mean? head
"Rose". In writing "thinking"
more writing but can't make
it out. "York" in writing.

"mouth" in writing. → You
Just like that → John
(you meaning me)

~~see~~ seeing the "Moby Dick"
water waves, ~~just~~ just like on
the Classic book. 
(or whatever. I can't draw them)

Before the waves, I was seeing
a lot of writing Johnny.

Siegl, can't remember everything else
DATE Help me to understand what
all this means?

"Heard, yes!" in writing. This
feels like my journal, as if
others are reading it.

Show me who Moby Dick is?
(On getting frustrated w/ Lisa for
being so difficult).

"Yorkville" in writing
"Lye"

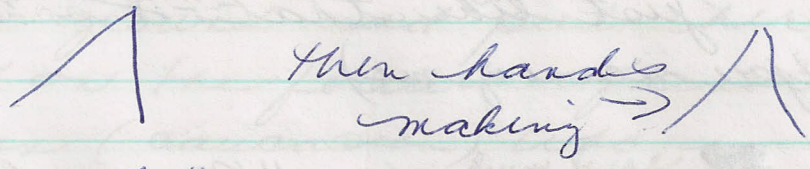

2:45 pm

John Spira, Lisa Stevic.
Stacy Litwin - John [redacted]

Am I right about what I'm
thinking the connection ~~is~~ to Spira,
Lisa, & Stacy?

Roadhouse text

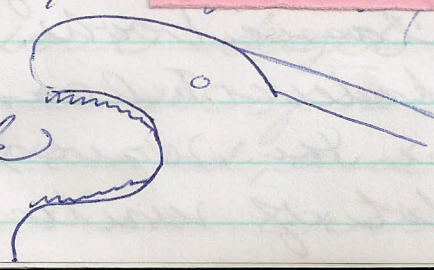

(Keep seeing writing)
What's the connection?

"peak"

Who is John [redacted]?

Moby Dick

has a softer look
to the flesh. Not
like
jaws
(but it is)

Okay, what else do I need to know?

Ship (in writing & heard).

Joe
Sullivan

teeta.  Keep seeing that.

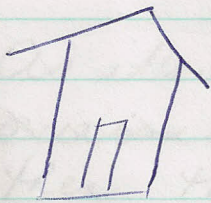

Some box thing then it's an open door that appears to be to a closet but I heard "cellar" I think the door is cedar. heard "Go away little girl before I beg you to stay." turnkey, turnkey operation).

Tell me about Lisa 

a "hard puppet" then the hand makes "signs" for sign language.

One room PPD school but it's an out house (the "shitter")

Keep seeing her left hand as a "puppet" making signs, secret signs.

(who is she making signs to?)

Roadhouse Crew

See her hand on the naked arm

of another. Then I see ~~the~~ man,
seems to be in Bed, bare chest.

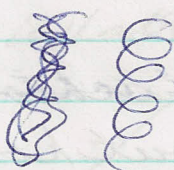

I think this is her husband but
not sure. I'm seeing white or
grey hair & beard but not sure.
While trying to get a picture
of this guy, I heard "John"
~~the~~ I'm certain
the man I was seeing was a
mature man, 50's at least.

new handwriting, script type
style, lit up or glowing white
"Her Majesty"

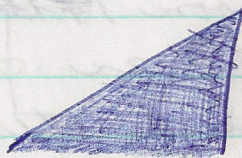

lol. She thinks her shit don't stink.

What do you guys want me
to know?

Corkscrew

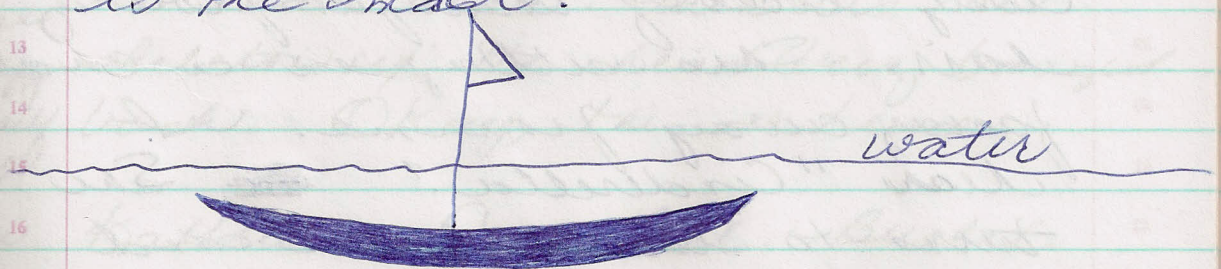

"Life is a Rock"

Seemed like a  and it's
a fetus. Then a mother or woman
w/ an infant cradling the baby
in her arms and feeding it a
bottle all the while there's

This motioning like being on the
water but it's back & forth
like rocking, swaying,
swinging but still.

The water motion feel. The
same motioning continues and
it's a black something, and
it feels like it will be a
ship when it comes into focus
then a sailboat, a different
one and it has a black
bottom but the entire bottom
is under water moving forward
or with the current and the
only thing that is above water
is the mast.

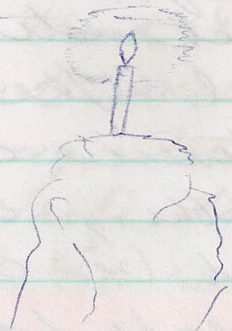

As it's moving forward with the
current, it's sinking lower
then the pole & sail (mast)
hits a pole that's in

The water and they get hung
up and stuck to this pole in the
water & break off and away
from the base of the boat that

is still under water and
moving forward w/ the current
and I think sinking deeper.

Break

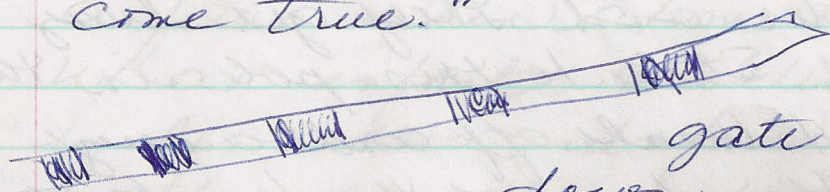

9:56 AM

a rock ledge on
bluff and a single
candle burning with
a bright flame. Light

"Ypt" is writing.

A woman w/ golden locks
of hair. Long ~~or~~ wavy full
curly locks of beautiful flowing
hair. She sitting in a chair
facing away from me. I
hear "Cinderella." ~~She~~ She
turns to look at me and
she is faceless. I heard
"~~Heard~~" "You" I asked
what about me? I saw
a large J and other writing
that I could not make
out. I heard "Heard do
come true."

a RR
gate coming
down. Then a

hard gun pointing this → way.
A hand holding the hard gun
and firing, Then a whole line
of hands holding the same kind
of hard gun and firing. As I'm
writing this, I hear "firing
squad".

Break

(walked away)

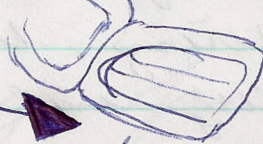

10:29 AM

10:45 AM

Tell me what happened to you and please identify yourself so I know who is who.

Lisa, John, Stacy, Kathleen:
"Lisa" "John" in writing
a hand grabs the neck, ~~it's~~
and it's choking and banging
the head back. Then it's the
skeleton of the head being banged
back. Okay, this is Lisa.

know Kathleen. Car seat. Bucket
who is seat, darker color, maybe blue
who. Or dark gray, slate gray. The
seat maybe two tone or it's leather
on parts and material in the
center

I believe she
← (maybe charcoal color)

means she was taken somewhere
but not positive. Bride in
bride dress. Then Bride and
Bridal procession. Jeze. He wanted

I wonder about this & what it means?

toilet paper roll.

She was (or someone)

taking some toilet paper. Then
everything went black. Friday.

o a woman's hand with
a ring on the index finger.
It's a dainty ring with a beautiful
setting. The woman's nails are
nice, feminine, polished, make
french tipped but not a white tip,
softer like a ^{warm} pearl color. And
she's got this ring on the nail
tip of her index finger and
she's motioning up and down with
the ring on the tip. It's that
water rocking motion, up & down
back & forth. I feel an association
to a ship. The key is the ring.
The ring is symbolic.

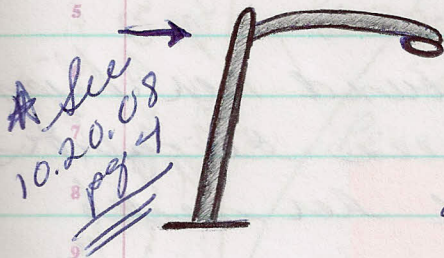

Big Ship, Big. Black bottom.
~~Big~~ Big guns firing. Weaponry
like huge artillery and all these
big & mighty weapons are on the
ship at the front and firing.
They have big guns.

* See Nov 21 2008
pg 4

So, who are the veg ship with
the veg guns?

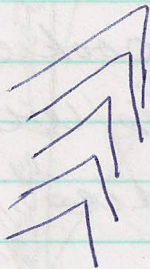

Some oriental looking man
with a very skinny flute or
pipe in his mouth that he's
holding in his hand. (Opium).

like langman then

The light pole.

Who is the light pole?

Rocks, that are like
sandwiches, that are
like sharks w/ mouths
that are all "decorated"
with gears sparkly garland
across the top & connecting to each
one and they are marching
in procession like "soldiers".
They are all the same, "uniform".
Like the "corners".

(Sandwiches are "made".)
