"As there anything you want me to know, Lisa?"

day Sunday date November 2, 2008

Freaky mind mess is what I am seeing.

Lisa, what about the freaky mind mess?

A hand, ^(right hand) palm up, with a ring in palm. Then the hand curls closed and "whisks away" with the ring.

Retreats, pulls away, swiftly ^{4:16:09} ^(dark, dry look black) Car seat, a bucket seat, the crease, inside the crack of the seat. ^{But didn't Not the place}

Person ^(female) sitting on the car seat holding their stomach. The ring is taken off ~~while~~ while she is in the car sitting on the seat. 5 seconds while the ring was being removed.

Started to see a distorted image of a jagged silhouette of a ^{man} ^{crow} ^{figure} but then lost it.

Am seeing a knife held in ^{thumb} ^{DOWNWARD} a man's hand downward as if to thrusting stab downward. The knife looked like a dagger but I heard "Buck Knife"

Lisa started to come through. She was driving, and sniffing, I sensed "coke" and asked her if she was snorting coke and she said, "yes!"

→ "Lisa, what does this have to do w/ your disappearance?"

In seeing my hand writing in journal but the only thing I can make out is "and"

Again, and what does this mean?
→ Also, see Nov 15, 1994 - VERY IMPORTANT 6)

* In seeing "buck teeth" as in Beaver teeth but on a donkey (Jacob's) Horse

I see a man, image is not so clear, and at first it look like he is on the water paddling with an oar but as it comes into focus, he's on shore at the water's edge digging w/ a shovel, he may be on his knees too.

Lisa, can you tell me how you
(and Stacy Peterson) are connected?

a ship on water, not very clear,
sailing a white flag (mast?) then
a white square and I heard

(See March 22, 2008, pg 3)
"It's up to be square" by Harry Lewis.

"More, Lisa?" Corners, lots of Ken
extending out (back) into the distance,
close together, connected, related.

"What are these 'corners'?"

Commanding Officer
flag ship? gargoyles, vultures,
predators, ^{Hunting} but with wings outstretched
with talons extended in preparation
to move in for the kill - capture the
prey.

? can't get anything else.

"Back to connection w/ Stacy."

(See Nov 9, pg 5) Handwritten looks like "Joyce"
heard "Joan". Sounding a "7"

→ 7-man Seven ← keep hearing that.
Thinking Drew, something w/ Drew.

Saw a woman's foot in a sexy
wedge heel sandal then again
heard 7-man Seven and

Thinking Drew.

"Is there anything else you want me to know?"

a one man boat or something, was ^{day} strange and ^{day} looked like a bird resting with wings closed around itself.

Heard "Take me down to the boat on the river." and again, just

like the song just those words. (actually, those are not the words to the song but it comes in that way)

I'm seeing a white peaceful looking bird, like those plastic yellow rubber ducks but it's white and has the face of a peace dove, it's ~~in~~ in the water, on the side of a barge (it look like) and it's using its wings like hands trying to cling to the barge, get up on it. I again heard "Take me down to the boat on the river." It may not be a barge because I felt it was multi-stories and that there were people on it though I didn't see any.

*

Some years

"Alright, Lisa, what about this boat on the river?"

See 1.4.04

Started to see something mechanical, gun weaponry of sorts then heard

(Arsenal Road?)

"Time Bomb" (See July 21, 2008)

propellar. saw a ^{long} shaft w/ a small propellar (sp?) on the end.

^{day} (E) ^{date} like the batman light but this ~~is~~ shining on the water. (another "C") → Cargo. (maybe it is a barge?)

I heard it again, "Take me down to the boat on the River."

I asked him to show me what this E symbol mean and I keep seeing a "palm" from a hand held up but all I see the palm of the hand. I heard: →

→ "look on trains." ← I'm really beginning to think that this E thing is a logo that is on "box cars" that travel on trains & Barges and the #'s from Brian's dreams may indicate the Serial # of the cargo box. #917263 Lisa Tracy 41428804

"Last Call, Lisa, I have to go. Anything else?"

Saloword and heard. "Cat" | jewelry. (nothing to do w/ cat) was on wrist, hand of a woman.

Can't get anything else.

I just remembered back from
~~early~~ ^{late} Summer, late spring 2007,
This "Take me down to the boat on
the river" came to me when
debating on Emily's blog w/ one
of the trolls, or maybe it wasn't
Emily's Blog and it was on topix
but it was at that time because
I used the "Hallidroped lips"
term in one of my ^{topix} posts. I'll
search for that when I can.
That would be under "Will of"
and therefore would still be there.
