Hacy, I'm trying to locate you,  
where south should I go to?

Rocking motion of being on a boat/water.  
Wavy rocking is repetitive, continuous.  
There's also the sound of a motor  
or something mechanical. A rock  
quarry wall then a cross on  
the wall

(Sel 3/11/09)  
p2

Seemed to  
be a road  
or something.

I'm surfing a river as of a google  
earth image and there's a  
road that runs along the river.  
I'm trying to read the name but  
I can't. I heard "Ridge Road".

projection?

I see a car. I think it's  
upside down. Then something  
about the door handle. There's

a clamp or lock on the door handle  
on the outside.

Driver's side car seat and  
I see Stacy on her hands  
and knees next to the car  
seat with her hands trying to  
reach up to the seat but she  
can't breath. She can't breath.  
She's on the ground outside the car  
between the open door of the car and the  
seat.

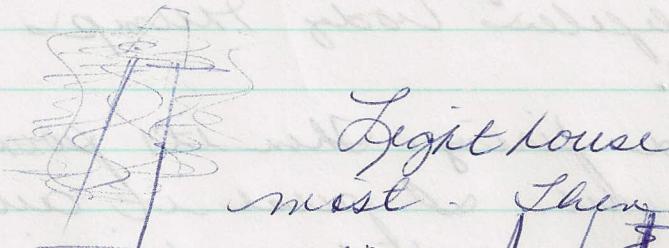

I saw an aerial image of  
a small airport.

(was interrupted - shit!)

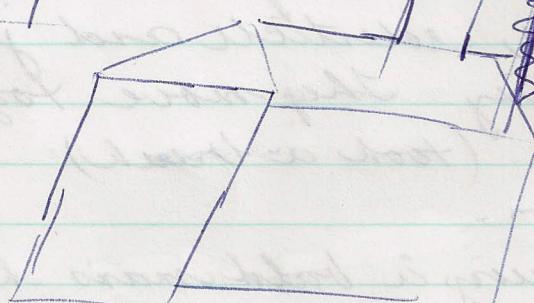

Inside a very small cockpit.

(Keep getting interrupted!)

8:03 AM

Lighthouse in a foggy  
mist. Then a church

Then that  
Black Silhouette  
Hawk or  
Bird of prey  
that always  
just appears

flying in the sky.

Silver heavy gauge chain around  
an old pink car, like from 60s.  
This car is driving down onto the  
water. This is a quarry w/ stone  
walls.

Hand off. There was a  
hand off. Seems like lots of hand offs or  
passing from one to another in a chain.

A man's foot in a work boot (cheap)  
with a more soft rounded toe.

~~At~~ Then stepping up next  
to the man is a woman's foot  
in a flip flop or some kind of  
careless footwear like that.

→ A passenger's car seat being  
pushed or folded forward. A female  
is thrown out of the car seat  
and her lifeless body thumps to  
the ground.

A gun firing. Then it's pointed  
directly at me. I push it away.  
Then 2 guns, identical and joined  
together firing. They move together.

(took a break)

8:35 AM

An锯ing a bald man's head  
and at first I think it resembles  
Mortel but then as it comes clearer  
that man turns his head to face

me and its.

I say, "South to Rockdale"? a  
little perplexed and as I'm  
thinking about Rockdale, I 1.28.09  
see the sun shining. ? (rose clothes  
I found today  
from the lochs)
